DEKTON[®] & SILESTONE[®], MODULAR PRODUCTS

In order to meet LEED requirements and to be able to consider our products as modular materials, the following applications are considered for both products:

- Non-glued worktops or glued on movable surfaces.
- Tops of mechanically, chemically fixed or overlapping tables.
- Lining of unfixed furniture.
- Lining of movable partition walls in constructions.
- Parts of raised floors.
- Any other application of the product to be fixed by mechanical systems other than those referred to above.
