MANUFACTURER'S DECLARATION

KEIM Interior Paints with Anti-Mould and Anti-Algae Characteristics Confirmation regarding KEIM Optil, KEIM Innostar, KEIM Ecosil-ME and KEIM Innotop

The above-mentioned paints are silicate paints for interior use. The alkalinity of the paint's silicate binder remains at a pH-value of approx. 10 even after the paint coat has cured. The alkaline coating acts against mould or algae infestation of the wall surfaces.

Best regards,
